

CONTENTS

- PREFACE / vii

● OVERVIEW OF CLINICAL EEG PRACTICE	1
From the initial request to the final report	1
The two levels of EEG recording	3
EEG diagnostic and taxonomic criteria within the context of the revised terminology and concepts for the organization of seizures and epilepsies (Berg <i>et al.</i> , 2010; Scheffer <i>et al.</i> , 2017)	4
● GENETIC (IDIOPATHIC) GENERALIZED EPILEPSIES (GGE/IGE)	9
Typical EEG features - attributes and dynamics	9
EEG features that, in the presence of ≥ 2.5 -Hz GSWD/GPSWD, may indicate coexistence of GGE/IGE and focal epilepsy of structural or other aetiology, or secondary bilateral synchrony (SBS)	11
● SYNDROMES OF GENETIC GENERALIZED (IDIOPATHIC) EPILEPSIES	17
Childhood Absence Epilepsy (CAE)	17
Juvenile Absence Epilepsy (JAE)	23
Juvenile Myoclonic Epilepsy (JME)	30
Epilepsy with generalized tonic-clonic seizures alone (GTCSa) and other genetic and probably genetic generalized epilepsies	37
Eye lid myoclonia with or without absences or jeavons syndrome	58
● REFLEX EPILEPSIES	73
Photosensitivity and visual sensitivity	73
Reading epilepsy (Including also language epilepsy)	80
Fixation-Off Sensitivity (FOS)	85
● STRUCTURAL AND GENETIC FOCAL (LOBAR) SYNDROMES	89
Temporal Lobe Epilepsy (TLE)	89
Adult neocortical (lateral) TLE (latTLE)	95
Familial mesial TLE (fmTLE)	100
Autosomal dominant partial epilepsy with auditory features	102
Frontal lobe epilepsies (FLE)	104
Occipital lobe epilepsies (OLE)	113
● PROGRESSIVE MYOCLONUS EPILEPSIES (PMEs)	119
Unverricht-Lundborg disease (ULD)	119
Lafora Disease (LD)	124

● NEONATAL SEIZURES AND SYNDROMES	129
Overview of neonatal seizures and epilepsies	129
Neonatal epileptic encephalopathies: early-infantile epileptic encephalopathy with suppression-burst pattern (Ohtahara syndrome) and Early Myoclonic Encephalopathy (emE)	130
Benign Familial Neonatal Epilepsy (BFNE)	138
Focal structural epilepsy of neonatal onset	140
● INFANCY/EARLY CHILDHOOD	147
Infantile spasms (IS) and West syndrome (WS)	147
Dravet syndrome (DS)	154
Myoclonic Epilepsy in Infancy (MEI)	164
Benign Infantile Epilepsy (BIE)	169
Epilepsy of Infancy with Migrating Focal Seizures (EIMFS)	172
● CHILDHOOD	175
Febrile Seizures (FS) and Genetic Epilepsy with Febrile Seizures plus (GEFS+)	175
Benign Childhood Epilepsy with Centrotemporal Spikes (CTS) or Benign Rolandic Epilepsy (BRE)	181
Panayiotopoulos syndrome (PS)	189
Occipital childhood Epilepsy of Gastaut (OE-G)	195
Epilepsy with Myoclonic-Atonic Seizures (EMAS)	200
Absence seizures in the first three years of life	214
Lennox-Gastaut syndrome (LGS)	221
Epilepsy with Myoclonic Absences (EMA)	226
Encephalopathy with Electrical Status Epilepticus during slow sleep (ESES)	232
Landau-Kleffner syndrome (LKS)	241
Acknowledgements and disclosures	248
● REFERENCES	249
