

Supplementary material

Supplementary table 1.

Logistic regression: epilepsy vs region and largest dimension; outcome: epilepsy.

Effect	Class	Odds ratio estimate	Lower 95% confidence limit	Upper 95% confidence limit	<i>p</i> value
Region	Multiple location vs one location	4.013	1.283	12.555	0.016936
Largest dimension		1.059	0.997	1.125	0.061497

Supplementary figure.
