

Articles with video sequences published in 2010

The evolution of antiepileptic drug development and regulation

Alexis Arzimanoglou, Elinor Ben-Menachem, Joyce Cramer, Tracy Glauser, Rav Seeruthun, Miranda Harrison
(a powerpoint presentation)

Partial seizures with affective semiology versus pavor nocturnus

Cesare Maria Cornaggia, Massimiliano Beghi, Simona Giovannini, Antonella Boni, Giuseppe Gobbi

Stimulus-sensitive post-anoxic focal motor seizures evolving into generalised myoclonic status epilepticus: a video-EEG study

José L. Fernández-Torre, Carlos Santos-Sánchez, Francisco Casariego-Pola, Jesús Calleja

Reversible sleep-related stridor during vagus nerve stimulation

Erik K. St. Louis, Kevin Faber

Ictal whistling: a rare automatism during temporal lobe seizures

Seetharam Raghavendra, Seyed Mirsattari, Richard S. McLachlan

Nocturnal groaning (catathrenia) and epilepsy

Jan Zinke, Sven Rupperecht, Matthias Schwab, Georg Hagemann

Absence seizures with myoclonic features in a juvenile Chihuahua dog

Roberto Poma, Ayako Ochi, Miguel A. Cortez

A seizure response dog: video recording of reacting behaviour during repetitive prolonged seizures

Lidia Di Vito, Ilaria Naldi, Barbara Mostacci, Laura Licchetta, Francesca Bisulli, Paolo Tinuper

Paroxysmal tonic eye deviation: an atypical presentation of hypothalamic hamartoma

Ivana Olivieri, Federica Teutonico, Simona Orcesi, Grazia Papalia, Carla Uggetti, Stefano Bastianello, Umberto Balottin, Pierangelo Veggiotti

Bathing epilepsy: a video case of an autonomic seizure

Katrien Jansen, Jan Vervisch, Lieven Lagae

Refractory nonconvulsive status epilepticus in Creutzfeldt-Jakob disease

Maria Aiguabella, Mercè Falip, Misericordia Veciana, Jordi Bruna, Antoni Palasí, Luisa Corral, Jose-Ignacio Herrero, Susana Boluda, Jaume Mora, Alex Iranzo, Carme Serrano

Convulsions associated with gastroenteritis in the spectrum of benign focal epilepsies in infancy: 30 cases including four cases with ictal EEG recording

Raffaella Cusmai, Bosanka Jovic-Jakubi, Laura Cantonetti, Natia Japaridze, Federico Vigevano

Ictal kissing: a release phenomenon in non-dominant temporal lobe epilepsy

Razi M. Rashida, Katherine Edera, Joshua Rosenow, Michael P. Macken, Stephan U. Schuele

Lingual myoclonus associated with brain tumour: an epileptic origin?

Rezzak Yilmaz, Busra S. Arica, Aytac Yigit

Seizure in benign epilepsy with centro-temporal spikes

Gorande Kanabar, Maggie Sully, Katy Walsh, Kavita Chawla

Unilateral opercular lesion and eating-induced seizures

Siresha Chaluvadi Manyam, Doris H. Kung, Lisa B. Rhodes, Michael E. Newmark, David E. Friedman

Unilateral continuous subclinical paroxysmal activity: an unusual finding in a patient with recurrent absence status

Reana Velizarova, Pierre Genton
