## Books we received

- **Wheless JW, Willmore LJ, Brumback RA**

*Advanced Therapy in Epilepsy*

PMPH-USA, 2009

ISBN: 9781607950042

475 p.

A multi-author book, well coordinated by 3 associate editors, all experts in the field. It includes well structured state-of-the-art reviews on diagnostic and above all treatment topics of modern epileptology. Useful in everyday clinical practice it also includes a DVD with videos illustrating several seizure types and demonstrating implantation of VNS.

- **Rowland LP, Pedley TA**

*Merritt's Neurology*

Lippincott Williams & Wilkins, Philadelphia, 2010

ISBN: 9780781791861

1200 p.

This is the 12<sup>th</sup> edition of a book first written by Houston Merritt in 1955. The book is one of the landmark books in General Neurology, intended for medical students, fellows in Neurology, practicing neurologists and child neurologists but also nurses and other healthcare workers. All major domains are comprehensively treated by world known experts in the field. Tables and Suggested Reading references per topic prove to be very useful in everyday practice. Purchase of the book also provides a personal access code to a dedicated website: [merritsneurology.com](http://merritsneurology.com), including a fully searchable electronic version of the book.
